► SESSIONS: INFORMATION YOU CAN USE NOW & IN THE FUTURE

The Summit's agenda is organized into four key themes:

1. Innovative Ideas
2. Emerging Best Practices
3. Adaptive Reuse, Renovations, and Flexible Facilities
4. Leveraging Technology

We are currently assembling a roster of speakers to share the latest on planning, real estate, design, construction, and operations of healthcare and life science facilities. Discover the emerging trends, strategies, and technologies reshaping the industry. Network with your industry peers. Earn CEU credits. Gain valuable insights you can put to work the next day.

► INNOVATIVE IDEAS

Keynote: What's Next

An inside look at pressure points impacting healthcare. A seasoned panel of seasoned regulatory experts, owner/operators and AEC professionals share their insights. Examine how these forces will affect projects and drive planning in the short term. Understand the available options to be considered, the decisions to be made, and risks to be managed.

- Tim Fry, Healthcare Partner, McGuire Woods
- Molly Gamble, Vice President of Editorial, Becker's Healthcare

► EMERGING BEST PRACTICES

Creating a High-Quality Workplace Experience in Healthcare

Healthcare is a 24-hour 365-day people business, yet at every level there is labor shortage. Without a great workplace it's difficult to attract and retain the right people needed to care for a growing patient population. Explore what makes a high-quality workplace experience. Unpack the science and how it helps people thrive personally and professionally. Discover how design supports recruitment, performance, and reduces burnout. Identify the amenities people truly want in the healthcare workplace.

- Lorian Duffy, Executive Director, Operational Excellence/RESO, Providence Healthcare
- Margie Gauthier, Operations Director, Shirley Ryan Ability Lab
- Michael Schur, Global Wellness Leader, Gensler
- Stasia Suleiman, Regional Healthcare Practice Area Leader, Interior Design Director, Gensler
- Moderator: Sara Marberry, EDAC, Sara Marberry, LLC

The Future of Space Utilization: Optimizing Healthcare Facilities with AI

Increasing demand, evolving patient needs, staffing constraints, and financial realities are driving healthcare systems to rethink how they use their facilities. See how data-driven AI can improve outpatient facility planning and operations. Learn how actionable insights, predictive analytics, ongoing monitoring, and scenario modeling can optimize space utilization in healthcare facilities.

- James Harrell, Emeritus FAIA & FACHA, Consultant, Harrell Consulting
- Peter Iacobelli, MHSA, Physician Group Practice Administrator; Health Strategy and Operations Leader; formerly Chief Transformation Officer, MyMedicalHub Corp; Executive positions with UC

Big Healthcare Projects: Managing Scope, Schedule, Budget, Execution & Expectations

Take a deep dive into the intricacy of planning, designing, approval, building, and meeting community needs for big projects. Get the insiders' perspective of what working and isn't. Explore how new technology and methodologies are keeping projects on track and budget. Understand why and how important people are to a project's success or failure.

- Allan Ames, PE, LEED AP BD+C, Chief Executive Officer, BR+A Consulting Engineers
- Jesse Balok, Vice President Campus Planning & Operational Integration, Henry Ford Health System

► LEVERAGING TECHNOLOGY

Navigating the Digital Revolution: From Tech Chaos to Cohesive Care Environments

The proliferation of digital tools and technologies brings both new opportunities and increasing complexity in project delivery and operations management. This panel explores how to bridge the gap between innovation and implementation, ensuring digital tools deliver measurable value from day one.

- Braheem Santos, US Segment Leader, Healthcare, Schneider Electric
- Tripti Singh, Senior Healthcare Planner, SmithGroup
- Moderator: Hannah Mitchel, Strategic Account Executive Healthcare, Schneider Electric

Rethinking Why, When, and How We Choose Medical Equipment

Discover why the traditional cost-driven way of evaluating and acquiring medical equipment is negatively influencing the design, construction, schedule, budget, and long-term costs of healthcare projects. Identify the benefits to all stakeholders of using an all-inclusive process to uncover hidden costs; while prioritizing total value, adaptability, and patient care.

- Cathy Gambacorta, RN, BSN, Senior Medical Planner, Introba
- Laura Tagorda, Senior Medical Planner, Introba

New Generation of ORs – Borrowing a Page from High Tech Playbook

The high-tech industry is relentless in finding ways to improve quality while doing it faster and often for less. Learn how cleanroom methodologies and modular construction enhance the design, construction, performance, and maintenance of operating rooms.
