REAL ESTATE & CONSTRUCTION TRENDS

Building Flexibility into the Next Generation of Outpatient Care

As higher-acuity procedures move out of hospitals and into ambulatory settings, healthcare owners face a challenge that goes beyond where care is delivered: Many existing outpatient buildings were never designed to support it. The shift is already visible.

ENERGY & SUSTAINABILITY

Hospitals Are Energy Super-Users. Why Is It So Hard to Modernize Them?

For many healthcare facilities managers, it is not difficult to identify opportunities to reduce energy usage. The more persistent challenge is finding a practical way to fund those improvements while competing with capital priorities that continue to place pressure on limited budgets.
