### Attendee Comments

"Well organized"

"Walter (Jones); Metro Health; Cogence; Jim Kendig; TJC"

"Very informative; Code changes extremely helpful"

"Variety of topics"

"Variety of practical topics"

"The various topics & speakers"

"The people"

"The general format, duration, audience size, and overall content have always been excellent"

"The FGI guideline portion"

"The breakthroughs in lighting technology provided a subject I can suggest to clients. This was interesting and helpful"

## Northern Ohio 2018- Post Summit Recap

**Summit Speakers**  
 April 12, 2018, Cleveland, Ohio

### Compliance, Regulations & Operations

#### FGI Guidelines for 2018

**Doug Erickson**, CEO of Facility Guidelines Institute  
 The 2018 Guidelines Edition:  
[www.fgiguidelines.org/guidelines/2018-fgi-guidelines/](http://www.fgiguidelines.org/guidelines/2018-fgi-guidelines/)

#### Latest News - The Joint Commission

**James Kendig** (left), Field Director/Surveyor, Management & Development, The Joint Commission; **David McCoy** (right), Director Facilities Compliance, Buildings and Properties, Cleveland Clinic

#### Q&A Panel with Experts Who Work in Trenches

(Left to Right) **David McCoy**, Director Facilities Compliance, Buildings and Properties, Cleveland Clinic; **Robert Davenport**, President of NOSHE, and Executive Director of Facilities Operations, Sodexo/University Hospitals; **Doug Erickson**, CEO of Facilities Guidelines Institute; **James Kendig**, Field Director/Surveyor Management & Development, The Joint Commission

### Strategy & Trends

**Forces That have Completely Changed Healthcare**

### Campus Transformation

**Winning Project Case Examples**

"That it was in Cleveland at the Global Innovation Bldg."

"Small intimate was great!"

"Networking was great!"

"Presentations by Erickson & Kendig"

"Nice diversity"

"It was very informative"

"I could only attend the morning. The updates from Doug, Kendig, and Peter were very helpful. I'm less about products and stuff I already know, and more about trends and looking forward"

"Good mix of topics"

"Good Material"

"First time, very impressed"

"FGI facts"

Examples provided / Best practices

"Engaging from start to finish, panel discussions, Q&As, integrated relevant topics in a thought provoking overall view of the past, present, future trends and impacts within/to healthcare design-facilities management operations"

"Diversity- a lot of good topics"

"Cogence panel"

"1 Day format"

"Thank you for the program, it was very good"

**Peter Bardwell**, Principal at Bardwell +associates and Past President of American College of Healthcare Architects and AIA Academy/ Architecture for Health

"Be sure that you're asking the right question... because questions that involve "better, faster, cheaper" may lead to the wrong answer"

**Walter Jones**, SVP, Campus Transformation, The MetroHealth System

"The design for the new hospital is conceptually similar to a warehouse, department store, spec office building, or convention center where size, configuration and arrangement of the building's contents are not limited by the facility"

### Design, Construction, & Project Management

Driving the Design and Construction Industry Together -The Future of Healthcare Depends On Us

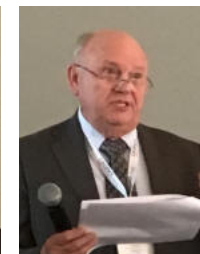

**Pam Neckar**, Founding President of COGENCE Alliance and Principal at Bostwick Design Partnership

**Dragan Dukich**, Senior Lab Specialist, Gleeson Laboratory Services

**Cliff Kazmierczak**, Vice President and Project Executive, Turner

**Ronald Lawson**, Owners Representative, former Director of Construction, Cleveland Clinic, Buildings & Properties

### Tips, Tricks and Traps to Avoid – In-the-Field Experts

#### Air Filtration/IAQ

**Dave Blackwell**, Camfil

**Tip:** "There has been a change in air filters and manufacturers are required to test filters for a MERV rating. Have the ASHRAE test report for filtration on record"

#### Roofing

**Joseph Slattery**, Tremco Roofing & Maintenance

**Trick of the Trade:** "Assign a "roof monitor" for the building. Make sure that the roof monitor comes along with rooftop visitors and keeps a journal of all visits. There's a better chance that problems associated with damage to the roofing system will be avoided"

#### Sound Masking

**Tom Zimmerman**, Cambridge Sound Management

**Trap to Avoid:** "Creating a great acoustic environment is a combination of the ABCs — Absorbing, Blocking, Covering — not the over-use of one with lack of another. Look at all three contributions before making a change to address speech privacy"

**Technology**  
**New Technologies**  
**Reshaping Healthcare**  
**Facilities**

**John McBride**, Director of Total Solutions Central Zone, Acuity Brands

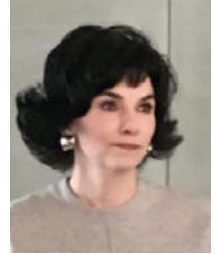

"Latest research is showing patients can benefit by using the lighting as it simulates daylighting .... Tunable lighting helps stimulate a patient's Circadian Rhythm"

**Looking Toward the Future**

**Future of Healthcare**

**Jeffrey Kent**, 2018 President of IFMA Health Care Institute & Managing Director Facilities, Nemours

**Cynthia Hubbell**, VP/Healthcare & Senior Living, The Mohawk Group
